General Comments

There is a variety of material and resources readily available for the children. The children were engaged in dancing and art at the time of visit.

Operator stated that the children are not playing in the area where the play structure is outside as they have not had the opportunity to till up the sand to meet regulation requirements. An inspection of this area will be conducted on a later visit. There is a large outdoor play area with plenty of resources to allow the children to continue playing outside the facility.

The Operator has a good rapport with the children. They have conversations with them and take interest in what they are doing. The operator redirects inappropriate language and behaviors in a very kind manner with gentle reminders.

Documentation was easily verified during my visit. All documentation required for licensing was complete and organized.

Licensing staff can now recommend facility for licensing.
