Address 440 555 Route Bedell NB E7M 4R2			
Name of Early Learning and Childcare Licensing Staff Nancy Glendenning		Position Title Inspector	
Order for Compliance	Regulation	Date to be corrected	Date corrected

General Comments

There is a wide range of opportunities offered to the school-age children. The Operator has implemented the following:

- gymnastic mats
- collaborative games for both indoors and outdoors such as basketball, Yard Jenga, a Toss games
- dramatic play
- a wide variety of art materials
- lego
- music
- sewing

The atmosphere is relaxed and calm, and the children are allowed to choose what they want to do for activities. Today the children were engaged in creating new art with beads and popsicle stick men, while another listened to music on the couch. The children also eat as they become hungry. They are not limited to a specific time. The Operator engages with the children in conversation, encourages them to be creative by providing many materials and reflects on their day at school with them. Clear boundaries are set with the children and expectations are defined.

Having a written plan ensures there are a variety of opportunities provided for learning and exploration. The current way that you are documenting the program is not recommended. Programming may be demonstrated in many ways, such as a weekly program, daily activity sheet. or journaling. These should be documented consistently and kept on file so that licensing staff can verify at the time of visit.

Daily attendance is being taken. However, please ensure that all children are signed in at the time of arrival and signed out at the time departure.

The Operator stated that there have been no reportable or non-reportable incidents or potential illnesses to report.

General Comments

Please ensure that the children do not use the play structure as you stated that you have not done the work to meet the regulations. If you choose to use it, please contact me so that I can inspect the area that it is in to ensure all regulations are met. Also, you stated that the children do not use the trampoline as it is owned by the house owner.

Toxics are locked in a closet and operator does not give children any medications. Currently, there are no allergies in the facility.

All documentation was easily verified by licensing staff. I can now recommend facility for licensing.
