Comments: Rugs and mats throughout rooms unclean, and require daily vacuuming. Tong- Swan rocker- paint chipping, requires painting.			
39(2) A licensed facility shall have a separate locked storage space that is inaccessible to the children for each of the following: (a) toxic products, chemical products and cleaning supplies;	39(2)(a)	Jun 01, 2023	
Comments: Gel air freshener on shelf in Fowler 1. This product is considered toxic and must be removed and kept under lock and key or discarded.			

General Comments

Monitoring Inspection completed today. Children were observed indoors, during snack, and outdoor play. Educators were observed engaged with and supporting children in play. During snack, educators engaged in conversation with children.

Environments are set up with materials and easily accessible for children to choose activities. Documentation is posted in the form of learning stories, photos and art. When posting documentation consider how accessible it is to children. Having some documentation at the children's level provides a sense of belonging and encourages them to revisit past experiences.

Outdoors, children went for walks and engaged in sensory play in the sand box, bubbles, and ride on toys.

Clutter observed throughout rooms on half wall ledges and on top of cubby shelves. Ensuring environments are tidy and free of clutter creates a more welcoming space, and supports children in valuing and taking care of their play space.

Recommendation to post a copy of the diaper changing procedure in the bookery bathroom.
