**General Comments**

A Monitoring Inspection was completed this afternoon. Children were observed arriving at the facility. Children were observed hanging up their belongings, washing their hands, filling up their water bottles, and then heading outside to play. While outside, children were observed playing catch, sliding and climbing on the equipment, and playing on the monkey bars. Classroom was observed prior to the children's arrival. In the classroom, several well-defined learning centers were observed - dramatic play, building and transportation, arts and crafts, loose parts, science, and a cozy readying area.
