Order for Compliance	Regulation	Date to be corrected	Date corrected

General Comments

A monitoring Inspection occurred October 16, 2025

Children were observed indoors engaging in a variety of activities, including playing bingo, reading, drawing, and playing board games. Educators noted that the children are currently interested in bingo and open-ended art activities.

The classroom was organized with several well-defined learning centers, including dramatic play, building and transportation, loose parts, games, and art.

Educators demonstrated positive interactions by using encouraging language and gentle reminders. They asked open-ended questions, listened actively, and extended children's ideas through conversations.

A clearly visible and prominent area was designated for posting the facility's license, current monitoring reports, and any orders for compliance. Additional documentation observed included incident logs, daily attendance records, and records of evacuation and monthly fire drills. The weekly menu is posted and includes any substitutions.
