Comments: Deficiency is now compliant			

General Comments

A Monitoring Inspection was conducted this morning. The school aged children were spending the full day at the school aged program, due to a Professional Development Day. Children were observed outside, playing on the play equipment. Educators stated that the children are interested in art, science, and being outside. The inside classroom environment was observed while the children played outside. A conversation was had with administrator regarding defined learning/ play areas. It is recommended that when making these areas more defined, that the building and reading areas be separated. A conversation was had regarding the clutter, under the windowsills. It is recommended that this area be better organized / cleared. A large open space was observed in this room, and administrator stated that this space was used for hockey. Parent Board was observed and all required documents were posted. A reminder that only the most recent Renewal Inspection and Monitoring Inspection reports need to be posted. All previous ones can be filed.
