Comments: QAM notes that one small bottle of Tee tree oil and one small bottle of Lavender essential oils were found in a drawer in the kitchen, which was blocked by a gate with a hook lock. These items are marked "keep out of reach of children" and should be kept with other toxic items under lock and key. The administrator immediately moved these items to the locked box. Deficiency is now compliant			

<p>General Comments</p> <p>Quality Assurance monitor observed children waking from naps and moving into various freeplay activities. QAM notes that there is plenty of current documentation with photos of the children that are visible on the walls at a level the children can interact with. Webbing can be found in each room shown for the full year. QAM and Admin discussed the book, "The Color Monster" and the various activities that were done in connection to the book. QAM observed staff getting down to the children's level, playing on the floor, and giving support and comfort as needed.</p>
