General Comments

Licensing staff was welcomed by the administrator at time of arrival. Had a discussion with the administrator regarding training of educators as the center focuses mainly on outdoor programs. The operators have created videos to watch regarding the safety about being outside in their large outdoor play space. The videos have topics such as animal safety, how to properly dress for seasons and the requirements for educators to carry extra materials in their back packs and how to properly communicate with other educators using portal two-way radios to make sure every child is accounted for at all times while in the forested area of the outdoor play space.

The center is filled with natural play materials, which creates a nice welcoming environment. Educators communicate well with each other which keeps the centre running smoothly during the day.
