General Comments

On the day of my visit the center was running well. The children's attendance was low due to illness going through the center. The educators were communicating and working as a team. The classrooms are clean and have been re-organized and learning centers have been established. There is evidence of planned programming and learning stories are being used to document the children's learning. The educators were friendly and due to the low number of attendance I was able to have a nice conversation with them. Discussed with the educators the importance of handwashing, teaching the children to cover their mouth when coughing and keeping the center as clean as possible. Please ensure that all visitors are signing in and out for COVID tracking purposes.
