Comments: Licensing staff arrived at the licensed facility to conduct a follow-up license renewal inspection. Licensing staff noted the wobbly wooden kitchen was removed from the outdoor play environment however, the tires have not been removed or a hole drilled in them so that the water can drain out of and not accumulate. Please ensure the tires are either removed or holes drilled at the bottom so that the water will not accumulate.			
31(4) An operator shall ensure that the outdoor play area of a licensed facility (b) consists of more than one surface to permit different types of play.	31(4)(b)	Nov 03, 2025	
Comments: Licensing staff was made aware that sand has not been added to the sand boxes in both the preschool and infant outdoor play environments and therefore does not contain more than one surface to permit different types of play. Please ensure the outdoor environments, both preschool and infant, contain more than one surface to permit different types of play for the children.
