General Comments
<p>Monitoring Inspection:</p> <p>Children and educator engaged in a variety of activities this morning. Children were observed exploring water colours, arctic animals, colour mixing and shapes and sizes.</p> <p>Many positive interactions were observed between the children and educator. The educator was observed encouraging children to share with their peers and work together. She also expands on the children's learning by asking open ended questions and engaging in meaningful conversations.</p> <p>The environment is set up in an inviting way with materials displayed and organized to allow children free choice. A variety of books and items from nature are accessible to the children in a cozy corner with a comfortable chair and soft lighting. This area is an inviting space for children to explore literacy and nature.</p> <p>Photobooks of the children have been added to the environment. This is a great way for children to revisit their play and learning. The children were excited to share their photobooks during the visit today.</p> <p>Hand washing routines were observed today.</p>
