<p><b>General Comments</b></p> <p>Visit to complete the renewal inspection today.</p> <p>The rooms have come alive with props and materials available to the children based on their interests. The children were observed to be engaged happily in play with one another and participating in activities together.</p> <p>The children in the 2's bubble group demonstrated a huge interest in books. They were very focused on read-alouds and participated along with the story. Their vocabulary is continuously increasing!</p> <p>The children were quite inquisitive about the "visitor" (early learning and childcare inspector) at their facility and they had many questions about why the visitor was present. A great deal of conversation branched off from this</p>

General Comments

and the children enjoyed contributing their thoughts/ideas/interests.

Observed both indoor and outdoor play today. It was evident that the children were familiar with the routine of the day and transition times occurred without difficulty.

Posted documentation in the rooms demonstrates recent activities and supports the children's learning. Documentation is posted at the children's level and they were observed enjoying talking about the photos, art, and so on. Educators have shown great improvements in quality of documentation as well as in room set-up.

Discussed the outdoor play space and dividing this space into 2 sections so that both groups of children can be outside at the same time without compromising the bubbles.
