<p>General Comments</p> <p>A renewal inspection occurred today. Each environment within the center facilitated learning though play with various materials to explore and engage. Children were participating in open ended playdough and clay, naming colors, numbers, also treating inspector to pretend food.</p> <p>Indoor and outdoor props and materials were displayed on children's level and organized to support maintenance and care.</p> <p>Children had fruit cups/crackers for breakfast, peanut butter/jam and cucumbers for lunch, following the schedule (daily routine) for snacks/meals on the posted menu.</p> <p>Educators met children at their level by kneeling, bending or sitting to establish better eye contact with children. Educators engaged in play and asked open-ended questions (tell me, what do you think?).</p> <p>Documentation was reflective in children's current interests and work in progress. Photos of the children were throughout the center supporting a sense of belonging.</p> <p>Art materials were throughout the center. Children created new " business cards" and were excited to show them off.</p> <p>All checks were verified and complete. All children and staff files were observed and completed. One child, new to Canada, does not have emergency contacts (noted in child's file). File will be updated once parents have more contacts.</p>
