### General Comments

When I arrived, the children were getting ready to go outside. While outside they played with chalk crayons, coloring large rocks on the property, they also played with the water table and ran and played with balls. Even when outside, Krista is always engaged with the children and always find learning opportunities for them. For example today she engaged the children in a conversation about colors while playing with the figurines from the water table and also, when they were playing with the tractor and ramp, she talked to them about the sound the tractor makes when it backs up ( beep beep).

When the children came inside, they washed their hands and had lunch. All the children sat quietly and ate their lunch while listening to quiet music and engaging in conversation with Krista and each other. They then read a book together and went down for nap. Krista was able to put all the children down for nap with ease.

Krista has a family dog and the children loving having him around. He is very friendly and loves the children.

The Centre is very clean and well organized. Programming is very evident, and the Centre is divided and set up in a very thoughtful way. Lots of great learning materials and toys. Krista keeps a binder with all the children's learning activities trough the year, I enjoy going trough this binder, and seeing all the great and interesting activities the children did all year.

The children seem to have a really good relationship with Krista and seem to be very comfortable and well established in their routines.

Krista is always encouraging the children and teaching them good manners. Lots of positive interactions observed between Krista and the children.

Everything is in compliance today, I recommend for renewal.
