Order for Compliance	Regulation	Date to be corrected	Date corrected

General Comments
<p>Monitoring visit performed Covid guidelines are being followed and the operator was masking with the children. Administrative records were reviewed and the operator has been documenting fire drills, attendance, toddler info sheets etc. Vaccination status for the operator was also verified. thank you. Upon arrival children were finishing lunch and 2 children soon went down for a nap during my visit, while the other 2 children participated in quiet time activities. Operator has submitted an application to the department to become designated. This process can take up to 60 days. The department will be emailing you a designation agreement in the near future to begin the process. The Operator has made lots of positive programming changes and bought new toys, equipment and materials and also replaced the table with a child size table and made materials more accessible to the children. Independence is so important. Everything looks very inviting. Her play area is purposefully planned and children were very excited to show me all the new toys and equipment. Appropriate child guidance was observed. The operator is very engaged with the children, lots of conversation and interaction. After nap, all children will get ready for outdoor play. Beautiful day today.</p>
