General Comments
<p>Monitoring visit performed. 6 children on site today which includes 1 school age and 2 under 2 years. No deficiencies observed. Busy happy little group of children.</p> <p>Appropriate child guidance was observed - lots of conversation and interaction and the operator easily addresses problematic behaviors and asks the child to use their words to express how they feel. All better and everyone was back playing including the dog which is a constant at the centre. The children love this dog and he obviously loves the attention.</p> <p>Upon arrival operator and children were outside enjoying a variety of play opportunities. They have spent a good portion of their morning outside. Lots of changes were observed to outdoor play space - risk taking area, nature area has been added, including a mud kitchen and the Operator plans to install a balance beam. The Operator also has been approved for funding, so she has many plans to enhance the outdoor classroom environment. I look forward to returning for a fall visit.</p> <p>Today was 'kids choice day' for outside. All children were observed taking turns sliding, playing in the sand box, running, and jumping from rock to rock and onto a stump. The mud kitchen is well equipped with implements. The Operator just finished her ECE training and received an honors certificate. Congratulations. You should be very proud of this accomplishment. It definitely shows in your program planning taking the children's interest in mind. Children's water bottles were also on site so lots of opportunities to hydrate themselves.</p>
