General Comments
<p>Monitoring inspection completed.</p> <p>Upon arrival, 2 children had just come in from outside. The Operator has provided lots of activities for the children. They built a castle with large lego blocks, created a heart using construction paper, sorted different sizes of hearts into cups, learned concepts of open and close, smooth and rough using senses of touch and sight. Operator uses playful conversation to encourage and involve children in play. Positive child guidance was observed during my visit. She is engaged and speaks positively with the children - 'way to go, you are so creative, what else could we do with these, thank you'. The operator plays 'snoot dog children's songs' which use lots of positive words in the songs. Lots of new words are spoken to the children. The children do not have a lot of vocabulary, so the Operator is constantly talking to the children which helps with their language development. Lovely to hear.</p> <p>Appropriate handwashing procedures are taking place at appropriate times and also during diaper changes and before eating lunch. The operator makes washing hands a fun activity. The operator has pictures with positive words written on them and she reads them to the children while they wash their hands.</p> <p>Children were observed eating lunch and going down for nap.</p> <p>My new telephone number is 506-429-2028.</p>
