<p>General Comments</p> <p>Upon Licensing staff arrival for the renewal inspection, the children were getting ready to go outdoors. The outdoor play space was fully fenced and offered many different opportunities for exploration and play with a wooden playhouse, a slide, a pipe tunnel, and mud kitchen with accessories. The children were observed playing ring toss with the Operator and making pancakes with fallen leaves in the playhouse kitchen. Positive child guidance was observed, as Operator offered the children many cheerful hugs, smiles and positive words of encouragement.</p> <p>Later in the morning, the transition to the indoor space was smooth. Outdoor shoes were changed, and coats were hung up on hooks in the hallway area. The indoor space was clean, organized and inviting with children's artwork and current learning stories on display. There was evidence of daily routine, planned activities, and documented children's learning. Play material such as magnet tiles, wooden puzzles, colourful dinosaurs, and a sensory bin with loose pieces were age appropriate and in good condition. Books were on easily accessible shelves and art supplies were organized in stations. Before lunch, proper hand washing was observed, and the Operator prepared lunches from home. While eating, the children sat facing each other, one, at a small table and another in a highchair, while the Operator remained engaged.</p> <p>The parent board near the entry was clearly visible with required licensing documentation posted. Monthly fire drills are being completed and the daily attendance logged. As a reminder, please update the name of your Quality Assurance Monitor.</p> <p>Licensing staff recommends for renewal.</p>
