General Comments
<p>Monitoring Inspection:</p> <p>Children and educators observed engaged in a variety of outdoor activities this afternoon. A group of children and their educator were engaging in gross motor games - Jail Break and Rock, Paper, Scissors Tag. The rest of the children were exploring the monkey bars, zip line and swings.</p> <p>The children were not observed in the indoor play area today; however, the QA Monitor conducted an inspection of indoor play area. The indoor play area is set up with a variety of materials in labelled bins on low open shelving for children to explore freely. Invitations are set-up for the children to explore throughout the environment - a sensory bin with ocean animals and an Earth Day art activity. The children had painted rubber snakes the day before with white glue and are planning on peeling them to learn about how snakes shed their skin.</p> <p>The protective surfacing under the swings is pooling away. Ensure that surfacing is raked and leveled regularly.</p> <p>The dramatic play sink in Room #2 is cracked. To be removed and replaced.</p> <p>Daily attendance records are accurate and reflect all children present. Child-to-staff ratio was observed to be met during Monitoring Inspection.</p> <p>New staff file (1) review was completed; all required documents are in place.</p>
