General Comments
Monitoring inspection performed. No non-compliances during this visit. Ratio was respected during the visit. Quality assurance monitor verified if all necessary documents were posted in a visible and prominent place in the facility. She went through the educator's programming book and could see purposely planned activities. In every classroom, documentation of children's learning was visible through learning stories and pictures. During the visit, QA monitor was able to observe the children playing outdoors. Children went to play outside to enjoy the beautiful weather and the fresh snow. Outdoor play is important to a child's healthy development.
