General Comments

The Quality Assurance Monitor is on site for a monitoring inspection.
The following items were verified:

- Child-to-staff ratios
- Incident records
- Outdoor play area
- If all required documents were posted in a visible and prominent place in the facility.

Child to staff ratio was respected at the moment of the visit.
All minor incidents are properly recorded, documented and signed by parents so that they are well informed of any incidents that may have involved the child while at the facility. All required documents were posted and the entrance of the facility. With that parents are well informed of the operation.

While on site, the Quality Assurance Monitor observed children playing indoor and transition to the outdoor play area.
