Comments: Inspector verifies all employee files and observes that 2 of the employees have expired criminal-vulnerable sector check. Operator must ensure that a criminal vulnerable sector check is renewed at least every 5 years for each employee.			

General Comments The inspector is on site to conduct the renewal inspection. During the inspection, the inspector observes free play, craft activities, gross motor activities, the lunch period, nap time, and interactions between children and educators, including singing songs, reading books, and circle time. The inspector reminded an educator to document the reason for a child's absence from the previous day. The staff member confirmed that she had asked the parent for the reason but had not yet received a response. The inspector had a discussion with the administrator regarding the importance of maintaining a distance of 46 cm between sleep mats. In one classroom, two mats were touching; however, the children were positioned feet-to-foet. The educator advised that she had previously been told this was acceptable. The child-staff ratio is respected throughout the inspection.
