General Comments
The center appears to be very clean and COVID signage is posted. Today I observed each classroom's indoor environments. Classrooms are set up well and have sufficient amounts of materials for the children to access. There are age appropriate materials in the classrooms and children's work is displayed in each one. I noted that there are natural materials in some classrooms. As we have discussed, the three's room will need some more attention with regards to set up, storage and materials. Some children were still napping during my visit and the nap mats were placed well for adequate spacing. Other children were playing outside during my visit. The ELC center appears to be running smoothly.
