General Comments
<p>Regular monitoring inspection was performed on this date. Outdoor play area was observed. Ratio was maintained at all times and educators communicated with one another when replacing each other in ratio. Appropriate supervision during outdoor play was observed.</p> <p>Children's files were reviewed and contained all required documentation.</p> <p>Transition from outdoor play to lunch time was observed. It is recommended that educators shorten transitions and engage the entire group of children with a book, song or activity while they wait for the other children to finish washing their hands and get seated for lunch. Any behaviours can be redirected before they can escalate when engaging children in an activity.</p> <p>Positive behaviour guidance was observed at all times.</p>
