Order for Compliance	Regulation	Date to be corrected	Date corrected

General Comments

There is evidence of the children's learning throughout the center. There are a variety of materials and activities for the children. The children were eager to show me the new books and toys they received today. Staff demonstrated exceptional positive child guidance as shown when an issue arose between two children. The educator asked the children " How can we solve this problem"; "What can we do instead". Another example occurred when a child got frustrated when getting ready for outdoor playtime. The educator talked to the child and stated " take a deep breath and let everything out"

The educators are attentive to the children's needs and communicate well with each other. Please remember to complete the monthly checklist as some were not completed in February.
