General Comments

The fence and gate that was to be installed on one side of the play area, after the ground thawed in the spring, has been delayed by the contractor until June 27th. Operator contacted QA Monitor to advise of the delay. QAM conducted onsite visit to discuss ongoing provisions for outdoor safety. QA Monitor observed that the Administrator ensured that the gate to the backyard compound was closed before the staff took children into the outdoor play area. The Operator and her staff will continue to follow the enhanced supervision and safety plan that was put in place March 14, 2022. Operator to submit another exemption request for Regulation 31(6) The outdoor play area of a full-time or part-time early learning and childcare centre at which services are provided to infants or preschool children shall be enclosed with a fence at least 1.22 m in height with a gate that is secured at all times when the children are present.
