General Comments

Visit done at the centre for a monitoring inspection.

Ratio was respected during the visit.

During the visit, the Quality Assurance monitor verified

- If all necessary documents were posted in a visible and prominent place in the facility.
- Storage space for toxic products, chemical products and cleaning supplies.
- If easily accessible space is provided for personal belongings, if personal belongings are labelled with the name of the child, only used for the intended child and stored separately for each child.

While QA monitor was on site, one group had morning snack, another group was outside, and the other group was doing fine motor and writing activities. Positive interaction between educators and children were observed.
