| <p>General Comments</p> <p>During the inspection, the inspector observed outdoor play, lunch time, nap time and various indoor activities being played in each classroom. Positive interactions between the educators/operator and the children are observed for the duration of the inspection.</p> <p>Discussions with the operator for the children who have life-threatening allergies listed in their child profile need to be updated every year. When changes to life threatening allergies occur, child profiles need to be updated immediately. Recommendations to the operator to verify all children's profile to ensure the information is accurate and updated. The operator and the parents should review the child's profile annually.</p> <p>During the inspection the ratio was respected.</p> |
