<p>General Comments</p> <p>Nancy Glendenning conducted the annual inspection with Laura Casey. Educators were engaged with the children at the time of visit.</p> <p>Licensing staff had a conversation with the Operator regarding the renovations that are still on hold in the school age part of the facility. Operator stated that the renovations should be completed by Christmas. Please recognize that the max capacity for school age children will be what that space measures for going forward. The school age children should not be moved into the preschool space to maintain ratios. As discussed during your inspection please provide confirmation when this work will be completed. Please be advised that the space will need to be approved by Fire and Health again prior to using it.</p> <p>Please secure the counter in the 3's and 4's room as it is slightly loose.</p> <p>All documents for licensing were easily verified. Operator keeps accurate and complete records.</p>
