<p>General Comments</p> <p>Monitoring Inspection- COVID-19 Recovery Phase.</p> <p>Requirements with regards to screening, cleaning and record keeping based on Covid-19 recovery guide in place. Having an extra staff on site to support cleaning between groups appears to be working well. Should groups need to be in the facility at the same time 2m distancing must be maintained by clearly separating the indoor play area.</p> <p>Children and Educators observed in play in the outdoor play environment during inspection. Children were excited to share with QA Monitor their forts they had been building and talking about what they like to do. Other children happy to be relaxing in the hammocks, and playing with the abundance of loose parts they have available.</p> <p>Positive and respectful interactions observed between educators and children.</p> <p>Documentation posted in the indoor environment demonstrates the children's interests and learning through the summer.</p>
