Name of Early Learning and Childcare Licensing Staff Jodi Hennessey		Position Title Inspector	
Order for Compliance	Regulation	Date to be corrected	Date corrected

### General Comments

A renewal inspection occurred today.  
The children were observed arriving from school, playing in their outdoor classrooms and snack. Handwashing was also observed as part of a normal daily routine.  
The children were observed interacting with their peers in the outdoor classroom which was considerably cooler with the natural shade provided by the trees.  
In the indoor environment a large paper mâché Titanic was observed that the children and educators had created. Webs and documentation supporting this current interest were also observed with questions that the children were inquiring about posted on the documentation.  
Interest centers were set up in the inside learning environment prior to the arrival of the children.  
Educators were observed interacting with the children positively as well as being supportive to children when they were upset.  
Facility is recommended for license renewal pending the recommendation from Fire.
