Address 283 New Maryland Highway New Maryland NB E3C 2H3			
Name of Early Learning and Childcare Licensing Staff Sabrina Diotte		Position Title Inspector	
Order for Compliance	Regulation	Date to be corrected	Date corrected

General Comments

When I arrived, the children were playing outside. The group welcomed a new child today and the staff and children were very welcoming, making the new child feel comfortable and welcomed.

Outside the children played with different activities including blocks, a sensory activity and played with crystals. The sensory activity was zoo themed and the children had a blanket laid out on the ground with artificial branches and plastic animals. There was also a windchime for sound. The children also played with different crystals that was brought in by one of their educators. The children looked all the different crystals, explored the different colours and textures in them and observed the different colours coming through when they were in the sun versus outside of the sun. The children also explored different types of wood such as cinnamons ticks and a piece of wood that one side was burnt. They were able to smell them, see how burnt wood smells different than non burnt wood and learned that you can use burnt wood to colour or write like a crayon. Some children also played with the outdoor blocks and there was water inside the storage bin and the children use the water to do some water play. Lots of smiles and laughter outside, the children were having a lot of fun.

The children then came inside for circle time and snack. They then played in the different stations followed by an arts and craft activity with animal sounds.

The centre is clean and well organized. The children have lots of toys and learning activities to meet their interest and educational needs.

The staff is polite and respectful towards the children. I observed lots of positive child guidance including gentle reminders and encouragements. I also observed the educators teaching and reminding children of proper hygiene such as washing their hands before eating and after using the washroom. The educators are always very engaged with the children.

Everything is in compliance; I recommend for renewal.
