<p>General Comments</p> <p>The children went outside this morning. Staff were attentive to the UV index and put sunscreen on the children this morning as the sun was strong. The children played outside until 12:00 when they came inside to wash their hands and have lunch.</p> <p>Staff were observed talking to the children in a respectful manner. Staff were observed encouraging children and providing positive reinforcement during bathroom breaks, hand washing, when children were sharing and during transition times.</p> <p>Staff were engaged with children outside and were playing with them. Staff were observed consoling children when needed. Staff were also observed helping during lunch time, opening their food and containers, one staff was seated with them and engaged in conversation with them.</p> <p>The routine is well established, and the children do well during transitions. The staff is attentive to the children's needs, when children expressed being tired and hungry, they immediately came inside and proceeded with lunch.</p> <p>There is evidence of the children's learning, each child has a binder with learning stories and their personal projects. The children talked about "what they are thankful for," this morning and their answers were documented on the board.</p> <p>The Centre is clean and organized. The children have many learning materials at their disposal, including materials in all mandatory categories. Books and other literacy opportunities pretend play items, items for arts and crafts, counting, colours and science-related items. The children also have a ball pit, a calming corner and lots of furnishings to sit.</p> <p>The outdoor playground was inspected and meets regulation.</p> <p>I recommend for the renewal.</p>
