| <p>General Comments</p> <p>Children were finishing up snack when I arrived for today's monitoring inspection. Once children finished their morning snack, educators ensure everyone had a chance to go to the washroom before getting ready to go outside.</p> <p>Children were observed independently getting ready to go outside. Educators were close by to help if needed.</p> <p>While children were outside, they observed playing in the sandbox, on the large play structure, on the spinning seat, and running around chasing each other. Educators were observed constantly moving around the playground to ensure they could properly supervise the children. Educators were also observed taking part in the children's play at time of inspection.</p> <p>Protective surfacing appeared to meet the required depth as per the Operator Manual at time of visit.</p> <p>Educators ensure children washed their hands when they came in from outside for lunch. Educators were observed sitting and eating with children at lunch time. They were also observed actively engaging in conversation with the children, creating a natural home-like environment.</p> <p>Educators observed providing children with warning before proceeding to transitions between activities.</p> <p>There are no longer any children who nap at this facility. Facility still has cots on site for those who wish to nap if need be.</p> |

General Comments

A reminder that there is a staff verification that will expire later this year. Please ensure to have it renewed in a timely manner to avoid the verification expiring.
