General Comments

When I arrived one group of children was getting ready to go outside and the others were playing with material of their choice. All groups spent some time outside in the morning and had snacks. Throughout the morning the children were engaged in different learning activities such as coloring, playing with blocks, the monthly calendar and weather board, playing with balloons, reading books and a science activity with baking soda and vinegar. Today for lunch was pizza and garlic fingers. After lunch some children had a nap while other played quietly.

The routine is well established which makes for a calm atmosphere, the children know what to expect and transition well from one activity to another.

I observed a lot of positive communication and interaction between educators and children. The educators are always engaged with the children and they are observed talking to children at their level and using positive child guidance such as positive reinforcement and gentle reminders.

The centre is clean and well organized. Lots of different materials to meet the children's interest and learning needs. The outside playgrounds are also clean with lots of toys and play equipment.

The staff and child files are well maintained and organized and include all the necessary documents. All other required documentation was up to date and met all the regulations.

Everything is in compliance; I recommend for renewal.
