General Comments

The facility's indoor environment offers a very bright and caring atmosphere for children to grow, learn and thrive in. The preschool and school age classrooms have an abundance of learning materials that meet the interests of the children. The indoor environment is also set up in a way that promotes independence by having all play material on low shelves so that the children can pick and choose what they wish to play with.

During today's monitoring inspection, the indoor environment was observed to contain a wide variety of play materials that follow the values and beliefs of the New Brunswick Curriculum Framework for Early Learning and Childcare. These materials included many natural pieces such as Wicker baskets, wooden tools, and other natural resources. The educators have set up the indoor environment in such a way that the children were excited about learning, they were using their creativity to invent imaginary worlds and stories during today's visit.

Educators were observed sitting down and eating snack with the children. They were also observed actively engaging in conversation with the children, creating a natural home-like environment.
