General Comments

All children were outside when I arrived for today's monitoring visit inspection. Children were observed playing with a variety of materials, such as using pieces of wood as wooden ramps to run trucks down to see whose truck could go the furthest, playing in the sandbox, driving plasma cars, playing on the play structure, bouncing balls back and forth and digging in the rocks/making rock creations.

Observed educators taking the opportunity to take pictures for documentation purposes when another educator invited a small group of children to remove their footwear and socks so they could feel the sand on their toes in the sandbox. Children appeared to really enjoy the feeling of "being at the beach" as the sand was a little wet from all the rain that occurred in the past couple of days. I overheard some children saying that it felt just like the sand next to the ocean does. Educators ensured that all children who wanted a turn in the sandbox got one by using a timer; once the timer went off the children all understood that they were to get out for the next group of children to have the opportunity to play in the sand.

All educator and child files that were observed today were well organized and in compliance with licensing regulations.

Please ensure that the door to the smaller licensed room remains closed when it is not in use to prevent children from entering the room unsupervised.
