General Comments

Children were finishing up snack and getting ready to go outside when I arrived for today's renewal inspection.

While outside children and staff were observed playing with kites that one of the educators brought in for the children to explore. Because there were only 3 kites, educators were observed ensuring every child who wanted a turn got one, they were also observed getting down to the children's level and explaining what it means to take turns and assuring them that they will each get their turn.

When the children came inside, they planted wildflowers. Observed "green houses" hung up in the classroom window in the smaller classroom. These "green houses" consisted of a bean wrapped in a wet paper towel, and placed in a clear plastic baggy in hopes the bean will eventually sprout.

Educators were observed actively engaging in conversation with the children during lunch time, creating a natural home-like environment.

Facility has added a "natural outside play space" which consists of natural play material, such as mulch, wooden playhouse, wooden bridge, benches, etc.

When it was time for quiet time, educators were observed taking out and setting up cots for the children who still nap. They also have extra cots for the days where children who do not normally nap wish to lay down for a bit, this was observed today as a child who does not normally nap asked for a cot and one was provided for them.

All files observed today were well organized and in compliance with the Early Childhood Services Act and Licensing Regulations.

Recommended for renewal.
