<p>General Comments</p> <p>Children were having snack when I arrived at the facility. The educators were observed sitting with the children while they ate. After snack the children had free playtime. The kitchen, blocks and lego area were popular centers for the children. A playdough activity was set up at the table after snack time as well. After some free play time, the preschool aged children got ready for outdoor play time. As it was a PD Day for the school, the school age children were there as well. They were observed drawing, making books, building with wooden blocks and lego. Some children were observed relaxing in the armchairs. The facility is clean and organized with many age-appropriate materials for the children to play and learn with. Staff files were reviewed. All the files contained the required documents.</p>
