### General Comments

A renewal inspection occurred today.

The classroom was set up with invitations to play prior to the children arriving. The indoor environment was well organized with a wide range of materials for the children to explore. The children were observed utilizing all areas of the outside play environment. The educators were spaced out in all areas allowing for proper supervision. The educators were observed engaging in conversations and play with the children. The children were observed playing four squares, rock-paper-scissors, digging for worms, and playing on the playground.

The following records were reviewed: Incident logs, fire drills, planning sheets, playground checks, and daily attendance sheets.

All staff files were viewed, and a random review of the children files was completed.

Facility is recommended for licensing.
