### General Comments

Preschool program is currently not operating.

Observed children free playing with a wide variety of toys when I arrived at the facility. I was informed that they were going on a field trip today to Killarney Lake.

While at the center I observed an abundance of positive child techniques. An example would be when some children were arguing over who accidentally knocked over a chess board and who should fix it as they were both unsure as to how to "properly" set the board back up. The educator took the time to sit down with the children and used this incident as a learning opportunity to talk through it and explain where the chess pieces go.

Educators assured all children were wearing their "Go-Go vests" before leaving to get on the bus. COVID-19 guidance protocols were followed while on the bus ensuring that all each bus had only two groups of children to keep with their class bubble and to ensure distancing. Observed educators taking roll call immediately getting on the bus (before departure) and again once they reached their destination and were off the bus. Observed bus drivers sanitizing the seats once children got off the bus.

Once arriving at Killarney Lake, educators were handed a schedule with different activity ideas they could do with the children. It also had suggested times to ensure that all 4 groups would not run into each other or be in the same place all at once to ensure social distancing protocols were followed. Children had the opportunity to partake in activities such as a scavenger hunt, active games, nature walks, and hiding rocks which they had painted.

Same attendance protocols were observed by educators once children boarded the buses to return to the center at the end of the field trip.
