General Comments
<p>Preschool program is currently not operating.</p> <p>Both groups of children were outside playing when I arrived. When children came back inside, they put all their belongings away, they were then asked to wash their hands.</p> <p>Once everyone had washed their hands, the group of children in the front room began doing a craft (paper bag puppets), those who were not interested in doing the craft were able to play elsewhere in the classroom. The group of children in the back room were playing musical chairs together, and those who were not interested in playing were able to play elsewhere.</p> <p>Educators in both rooms were observed interacting with children at time of visit. Observed positive child guidance techniques as educators provided gentle reminders to the children when needed. Educators were observed eating and sitting with the children at lunch. They were also observed engaging in conversation with them at this time.</p> <p>Facility promotes a clean, bright and welcoming environment. All material is arranged on low (at children's level) and open shelves so that the children can easily get what they want.</p> <p>It was noticed during today's inspection that the "proper handwashing" poster was missing from "group one's" washroom (yellow door). Educator was able to produce another poster and posted in the washroom immediately. It was also observed that the sinks in group 4 (blue door) and group 3 (red door) appeared to be coming loose from the wall, childcare manager informed me that a work order has already been put in to have them fixed/reinforced.</p>
