General Comments
<p>When the children arrived, they were immediately split into their separate groups. Group 1 got ready and headed outside, while group 2 had snack and played inside for a bit. After a bit of time, the groups switched.</p> <p>Educators from both groups were observed ensuring that the children were warmly dressed before heading outside to play. Educators were also observed interacting with the children at time of visit.</p> <p>Each group was observed doing their own gathering time where they discussed what they did over the weekend, each child that wanted to share what they did was given the opportunity to do so. A hot discussion topic was the Santa Claus parade that many of the children attended!</p> <p>Observed a light in the backroom that was flickering during today's visit. Educator and manager informed me that a work order has already been put in to get it fixed and was in the process of being looked at by a repair man before end of inspection.</p>
