Order for Compliance	Regulation	Date to be corrected	Date corrected
30(3) An operator shall maintain the indoor play area of a licensed facility to ensure the safety of the children.	30(3)	Feb 21, 2024	Feb 21, 2024
Comments: There were adult scissors on desks and at the level of the children. There were also glass bottles on the top of shelving above the children's head. Licensing staff advised educators and the items were immediately removed. Educators were asked to be mindful of clutter in their classrooms. It is imperative to keep clutter off of the tops off shelving and desks in the classroom.			

<p><b>General Comments</b></p> <p>The environment has been changed and more efficiently set up since last renewal. There are more defined learning centres and a variety of opportunities for learning made available to the children.</p> <p>During nap time, a separate area was made for children who do not nap. The administrator joined these children at their level, engaged in conversation and read books to them. The rest area had soft music playing in the background and the area was calm and inviting.</p> <p>The pre-planned program is being documented by the educators in the form of journaling. Educators were reminded by licensing staff that the daily plan needs to be progressive and outlining the interests of the children. The administrator stated that this will continue to be completed on a daily basis. Educators are also displaying pictures and crafts that the children are completing.</p> <p>The administrator provides a breakfast program to the children. The children bring their lunches and snacks from home.</p> <p>The educators were engaged with the children, providing redirection and gentle guidance when needed.</p> <p>Licensing staff can now recommend facility for licensing.</p>
