<p>General Comments</p> <p>On the morning of the monitoring visit, children were participating in a number of different activities.</p> <p>The 3 and 4 year old's were looking at books and having circle time. The educators were very animated and sing and do the actions with the children and made it very fun. There was lots of laughing and smiles.</p> <p>The 2 and 3 year old group was having free play and engaged in a number of centres around the room. I saw children playing in the sensory bin and doing puzzles.</p> <p>The school age children were divided into two groups. One group was participating in a STEM coding session in the multicultural building and the other group was playing in the gym. The children enjoyed playing tag with the educators.</p> <p>All 3 rooms have beautiful displays of the children's art and creations throughout the summer. There were bulletin boards with OCanada art, beach art, and multicultural designs.</p> <p>The educators all displayed positive child guidance. I observed a lot of patience used by the school age educators when children were disagreeing on who won the game or how to share certain items.</p> <p>When verifying staff files, it was noted that a new staff had an old SD check from their previous employer. All new staff must have a new SD check submitted and returned from their new employer. This staff was sent home and cannot return to be with the children until the new SD check is returned.</p>
