<p>General Comments</p> <p>Operator stated that curriculum documentation is something that she is still working on. There was evidence of a curriculum that is based on the interests of the children.</p> <p>Operator stated that she has not had to use potential illness forms as she has a screen out method used for ill children meaning that if any child exhibits any illness symptom they will not be granted into facility.</p> <p>The outdoor play space is an extension of the indoor play environment, providing many of the same opportunities as there is in the indoor play space. Operator has set up learning centres in the wooded area behind the house with many learning centres evident.</p> <p>Licensing staff recommended that the play structure not be used as it does not have a 6 feet encroachment zone for swings, slide, and stairs leading to the slide. The swing set would have to be moved forward in order to have this space. Also the circular swing, does not meet manufacturers instructions and it is recommended that Operator contact insurance company to ensure that they are covered should an injury occur. Operator stated that she would have the children refrain from using the play structure at this time.</p> <p>Licensing staff is able to easily verify all documentation for licensing. Operator is organized and keeps accurate and complete files.</p> <p>Licensing staff is able to recommend facility for licensing.</p>
