<p>General Comments</p> <p>On the day of my visit there was 1 child present.</p> <p>The center was clean and bright and there are plenty of accessible materials for the children to use and enjoy. Planned programming and documentation is evident in the ELC home as I observed the operator taking notes on something the child had said.</p> <p>Due to having only one child present the operator was able to focus solely on the child. The child decided to build a large fort. It had a kitchen, library and a bedroom. The educator was engaged with the child and followed the child's interest and plans while building the fort.</p> <p>Operator's filing system is complete and organized.</p>
