<p><b>General Comments</b></p> <p>On the day of the monitoring inspection report, the children were engaging in quiet time when licensing staff arrived at the licensed facility.</p> <p>Once the napping child woke up, the educator assisted the children to put on their outdoor clothing to go out into their out door play environment to play and explore.</p> <p>The outdoor environment was filled with rich natural materials. The operator has incorporated the forest as the play environment. Licensing staff observed a shelter built from tall logs. This space was used by the children on the day of the visit as a place just go and sit and take in all that they could see, hear and smell around them.</p> <p>Licensing staff also observed remnants of a very busy morning had by the morning preschool children digging and dumping of small and large sticks, as well as, different sized rocks and fallen leaves, acorns and pine cones, along the edge of the brook that runs along the perimeter of the outdoor play environment. The operator relayed to licensing staff that a majority of her morning preschool group spends most of their time in this area of the outdoor play space.</p> <p>Thank you for the tour of your indoor and outdoor environments!</p>
