<p>General Comments</p> <p>Arrived to perform monitoring inspection. Cathy Adams from Upper River Valley Autism Resource Centre was also visiting the children on this date.</p> <p>Observed children in the outdoor play space. Area had many defined play areas such as tents, mud kitchen, chalk board, art area, fairy gardens and butterfly gardens. The children were currently creating their butterfly garden by planting pollinator plants and painting rocks to decorate the area. Children were able to choose their paint colors and rocks and paint them as they wanted. Their visitor offered a Sensory Seeking Storytime with the children and many children chose to participate.</p> <p>The indoor play space was clean and well organized, also providing a variety of developmentally appropriate play materials and open-ended loose parts. The children also had caterpillars in the room which they were feeding and observing. Once the caterpillars become butterflies the children will be releasing them into their butterfly garden. Books about caterpillars were observed in the room and children enjoyed sharing their knowledge about this long-term project.</p> <p>Positive behavior guidance was observed at all times. The operator displayed a calm demeanor and reflected how children were feeling and offered guidance and choices when needed.</p>
