<p>General Comments</p> <p>When I arrived, the children were playing in front in the parking lot close to the building. If children are playing in the parking lot, cones should be set up to ensure the safety of children with the cars. This should only be done on occasion when there is limited traffic. In addition, your insurance provider should be consulted to see if they would approve this practice. The operator did have cones and a yellow "slowdown sign" and those were set up immediately.</p> <p>After some time, the children moved to the playground in the backyard. The playground was inspected and meets regulations.</p> <p>It started to rain so the children and educators came inside. They sat together in a circle and read a book and sang songs and danced. They had lunch at 11:00, children were asked to wash their hands before lunch. The educators sat at the table with the children and engaged in conversation with them and ate with them. While the children ate, one educator set up the cots for nap time. After lunch, the children had a nap or a quiet period for the ones who don't nap.</p> <p>The centre is clean and organized. The rooms are divided in stations, lots of natural elements, loose parts, different opportunities for literacy, science, math and much more. The materials are in good condition and of good quality.</p> <p>Educators were attentive and engaged with the children indoors and outdoors.</p> <p>Positive child guidance was heard such as gentle reminders and positive reinforcement. Compliments were given to the children for good manners and how they are being good friends.</p> <p>Programming is pre-planned and documented. There is evidence of the children's learning on the walls.</p> <p>I recommend for renewal.</p>
